HEBVEST

USE Drink Mixer with Single Spindle

specifications:

Model	R.P.M.	Voltage	Motor Power	Dimensions (L W H)	Container Capacity	Container Net Capacity
DM01HD	14.000/20.000	120v/60Hz	1/2 Hp	7" x 7" x 19"	1000ml	500 ml

installation & operation:

1. Please read instructions carefully before operating this appliance.
2. Ensure that the incoming Voltage is the same as the rated voltage for the appliance (as specified on the label)
3. Place all ingredients in the special cup supplied with the drink mixer, without overfilling.
4. Insert the stirrer in the cup and turn the appliance on using the switch located on the top of the drink mixer, choosing the required speed.
5. The drink mixer stops when the cup is removed from its supports, since the appliance is equipped with a microswitch.
6. At the end of the day the appliance must be unplugged.

CLEANING PROCEDURE

1. For the cleaning of the head of your drink mixer, you should use a damp cloth, but only after the drink mixer has been unplugged.
2. After each use and also at the end of the day, fill the mixer cup with a little water and dishwashing detergent and stir for a few seconds. Repeat 2 – 3 times with fresh water to rinse.

WARRANTY

ALL appliances have 1 year limited warrantee against defects in materials and workmanship. This warranty is valid for 1 calendar year from the date of purchase and is subject to General Terms and include transport.shipment or any other charges associated with returning the appliance to or their service agents.

ANY work carried out by unauthorised personnel on these appliance voids all warranty. Warranty does not include damage caused by incorrect installation, accident, transport or any other means not considered part of the normal daily operation of the appliance.
